## Education

### Purdue University

*Bachelor of Science: Cybersecurity and Network Engineering Technology*

*Master of Science: Computer and Information Technology*

*Additional Studies: Art and Design Studio*

*Study Abroad: Czech Technical University, Prague, CZ*

**West Lafayette, IN**

*2018–2022*

*2025–2027*

**GPA 4.0/4.0**

*Spring 2020*

### Awards:

- Ranked 1st in BSides Fort Wayne CTF 2025
- Ranked 1st in BSides Chicago CTF 2025
- Ranked 1st in Hack The Box Blue Team CTF 2025
- Ranked 4th in Last Minute Blue Team CTF 2025
- Ranked 18th of 3658 Teams NCL 2022
- Purdue Marquis Scholarship

### Certifications:

- CompTIA Pentest+
- CompTIA Security+
- CompTIA Network+
- Purdue Entry-Level Programming in Python

## Experience

### Purdue University

*Undergraduate Teaching Assistant*

*Graduate Teaching Assistant*

**West Lafayette, IN**

*January 2021–December 2022*

*January 2025–Present*

- Led one CNIT 470 Incident Response Management, two CNIT 270 Cybersecurity Fundamentals, four CNIT 255 OOP Intro, and one CNIT 176 IT Architectures lab sections.
- Provided feedback and guidance to students regarding extended incident response in a simulated environment, core security concepts, OOP best practices, and a semester long Raspberry Pi project.
- Wrote ransomware and Active Directory relay attack simulations in Rust to demonstrate malware evasion, cryptographic flaws, and provide realistic incident response artifacts.
- Wrote a Gradescope autograder in Rust to enforce code standards and rubrics, standardized Typst lab manuals, and queue system in Typescript to streamline lab checkoff.

### Crowe Consulting

*Cyber Security Consulting Intern*

*Cyber Security Consulting Senior Staff*

**Chicago, IL**

*Summer 2021, 2022*

*January 2023–August 2025*

- Led and performed Internal, External, and Web Application Penetration Testing for clients in the Public Sector, Financial Services, Healthcare, Manufacturing, and Life Sciences industries.
- Conducted cybersecurity gap and maturity assessments against industry frameworks and regulations including NIST CSF, NIST SP 800-53, ISO 27000, NYCRR, CUI, and HIPAA.
- Performed technical audits against hardened baselines of diverse systems, services, and network configurations, including Linux, Windows, Entra ID, and Active Directory.
- Developed methodology, scripts, and integrated control frameworks to support new forms of assessment.
- Provided virtual security officer services to a manufacturing organization including policy drafting, risk management activities, and acquisition transition.
- Spearheaded IaC project to modernize and automate Azure and vSphere engagement resource management using Terraform, Ansible, Packer, and GitLab CI/CD pipelines.

### Raytheon Technologies

*Student Tech Intern*

**Remote**

*Summer 2020*

- Enforced and audited AWS instance compliance against hardened Windows and Linux baselines on approximately thirty machines, with planned expanded deployment, utilizing Chef and Chef InSpec.
- Produced user acceptance tests for a Perl program to streamline Terraform provisioning.
- Performed manual and supervised automated patching to ensure rapid vulnerability remediation.
- Participated in daily stand-up and weekly planning meetings as part of an Agile workflow.

## Involvement

### Purdue Cyber Forensics

*Member/Vice-President/Treasurer*

**Purdue University**

*August 2018–December 2022*

- Presented and demonstrated offensive security tools and practices to complement course material.
- Collaborated with other board members to design and administer Capture the Flag competitions.
